### Michael Journak Takes Charge of Berry, Dunn, McNeil & Parker's NH Office

With an eye toward expanding service in southern New Hampshire, Michael F. Journak will take over as Principal in Charge of Berry, Dunn, McNeil & Parker's New Hampshire operations. Journak's managing expertise centers around building industry-specific service teams for clients. Consisting of accountants and consultants from New Hampshire and Maine, these teams combine expert skills relevant to each individual client's needs and financial complexity.

"Mike's experience as a skilled CPA, as well as his experience in the private sector, translates into very customer-focused client service. His strong management skills, his great sense of humor, and his ability to pull together successful teams are invaluable assets to both our office and our clients," says John Chandler, Berry Dunn's Managing Principal.

Journak's first priority will be continuing to grow the number of his team members in New Hampshire in order to support the growth of Berry Dunn's client base in the Southern New Hampshire market. "My goal is for our office to become widely recognized as the firm of choice for businesses and non-profits in New Hampshire and Vermont," he said. "In today's uncertain economy, businesses in our region are looking for more than a *close enough* firm. Whether we're working with banks and credit unions, high-tech manufacturing, hospitals or colleges, clients want accountants and consultants who know their specific industry inside and out. Because we have experts in all of these industries, we can work more efficiently for our clients. We are a full-service firm, focused on individualized client service."

Journak is a member of both the Manufacturing and High Technology Industry Groups at Berry Dunn, providing financial reporting, merger and acquisition structuring, tax strategies and financial planning, internal controls and system development, and strategic planning services for clients in the region. He enjoys speaking at various seminars on topics such as limited liability companies, corporate structure selection, accounting and finance.
